JURY PROCESS

Participation is determined by a 5-7-person blind jury in that jurors will not see artist name. The jurors will only see the artist ID, price, three required images, booth image, and artist statement. Your name or business should not appear in your application images. Jurors are keenly interested in the processes and techniques used to make your work so please describe in detail. This statement is often critical in determining originality and hand-crafted nature of presented work. We have allowed 500 characters in the application Artist Process Statement for this purpose. Jurors evaluate work based on originality, concepts, execution and consistency of style & presentation. Jurors also consider artist pricing for suitability to achieve success at this event and have a positive selling experience, generally artists whose works fall between the range of \$250-\$1,500.

Note: If selected to participate in the Festival, Image #1 will be used to represent your art in the printed program.

This show is designed for exhibiting artists who create and execute original, professional quality art. Categories are developed simply as a tool to organize artists' works into logical, related groups for judging competitions and awards. All work displayed MUST be produced by the exhibiting artist or two-person team collaboration and consistent with the images submitted to jury. Artist may only exhibit art in the category in which they were accepted. The Festival jury reserves the right to move an artist to a medium determined to be more comparable to the work presented in relation to other artists within the mediums or to merge mediums if the number of participants in that medium drops below ten.

Jewelry: Work must be designed, created and executed by the artist. All work displayed must be similar in style, quality and method to work presented in the artists images. No commercial casts, molds or production studio work is allowed. If using a commercially purchased component (bead, glass, gemstone, pearl, metal, or other material not made by the artist) and then strung, assembled and/or twisted on wire, the work must be unique and of an original design that makes it artistically distinguishable and attributable in design to the exhibiting artist. Embellishment to existing pre-assembled components is not considered acceptable as fine art works. This medium typically receives a large number of applications; therefore, to ensure that a variety of all mediums will be exhibiting, acceptance will be limited 30 jewelers.

Painting: Creation of a still life, portrait, landscape, abstract, or other image using any paint or combination of paints on a flat surface such as canvas, paper, wood, etc.

Drawing, Graphics and Printmaking: Compositions that are created by the artists' hand using chalk, charcoal, pastels, pencil, crayon, or ink. Printmaking is defined as multiple originals where the artists' hand has manipulated the plates, stones, blocks, composite reliefs, or screens. All prints must be properly signed and numbered in limited editions not to exceed 500.

Photography or Computer-Generated Work: Photographic Works: two-dimensional work created by the artists that includes digital and film photography that has not been manipulated to achieve results beyond what could be produced in a traditional darkroom. Only artists' original source material is acceptable. Works displayed in booth must be printed by the artist or under the artist's supervision in limited editions properly signed, and numbered. Computer Generated Work:

includes any original work created solely by the artist utilizing computer technology to craft visual images. Combinations of these media are also accepted in this category. All works must be properly signed and numbered editions. Both require disclosure of creative and printing processes.

Two-Dimensional Mixed Media: This medium is for works that incorporate more than one type of media in their production. Two-Dimensional Mixed Media will include, but is not limited to, more than one of the following: paint, pencil, photography or printmaking. Two of the same media style, i.e. oil & acrylic, pencils & pastels, etc. should not be submitted here. This category is not applicable for artwork that consists of one medium and then uniquely framed. Please include your brief determination as 2-D MM in the artist statement.

Studio Pottery: all original clay and porcelain work is accepted in this category. If multiple pieces similar in design are displayed, each piece must be signed. RAM pressed work or work produced from commercially poured molds is not acceptable.

Glass: work that has been hand-crafted by the artist by blowing, fusing, casting or kiln forming. This medium may exhibit jewelry that incorporates the artists' body of glass work. No forms of mass production are permitted. Pre-manufactured glass items are prohibited, regardless of additional modification or enhancement by the artist.

Fiber & Textiles: all work crafted from fibers including basketry, embroidery, weaving, tapestry, leather work, and papermaking. No machine tooling, machine-screened patterns or other forms of mass production are permitted. All pre-manufactured wearable items are prohibited, including studio production, regardless of additional modification or enhancement by the artist.

Three-Dimensional Mixed Media or Sculpture: art visible from 360 degrees. Three-Dimensional Mixed Media Works incorporate more than one type of physical material in their production and include the following: clay work, fiber, found objects, glass, metal, paint, wood, or any other 3-D objects. Sculpture is original three-dimensional work incorporating any materials that are designed and executed by the artist. No production studio work is allowed.

Non-compliance can result in expulsion and ineligibility for judging, awards and future Festival participation.

Artists are to provide their own white tents which must meet all fire codes. **All tents must be weighted, not staked – even those exhibiting on grassy areas due to City park restrictions.** Area provided to exhibit is 12x12, most with storage behind them; however, some booth spaces in our highest traffic areas do not have back space. Artists are provided a standard basic tent ID card at check in for the judging process. Artists are required to affix these to the front of the tent so they are easily visible.
