JURY PROCESS

Participation is determined by a 3-5-person blind jury in that jurors will not see artist name. The jurors will only see the artist ID, price, three required images, booth image, and artist statement. Your name or business should not appear in your application images. Jurors are keenly interested in the processes and techniques used to make your work so please describe in detail. This statement is often critical in determining originality and hand-crafted nature of presented work. We allow 500 characters in the

application Artist Process Statement for this purpose. Jurors evaluate work based on originality, concepts, execution and consistency of style & presentation. Jurors also consider artist pricing for suitability to achieve success at this event with a positive selling experience, which generally includes artists whose works fall between the range of \$250-\$1,500.

Note: If selected to participate in the Festival, Image #1 will be used to represent your art in the printed program.

The Chain of Parks Art Festival is designed for exhibiting artists who create and execute their own original, professional quality art. All work displayed MUST be produced by the exhibiting artist or two-person team collaboration and consistent with the images submitted to jury. Categories are outlined and developed as a tool to organize works into logical, related groups for judging competitions. The Festival reserves the right to add media categories or change an artist category.

Painting: Creation of a still life, portrait, landscape, abstract, or other image using any paint or combination of paint materials on a flat surface such as canvas, paper, wood, etc.

Two-Dimensional Mixed Media: This medium is for work that incorporates more than one type of media in their production. Two of the same media styles, i.e. oil & acrylic, pencils & pastels, etc. should not be submitted here. This category is not applicable for artwork that consists of one medium and then uniquely framed. Please include your determination of why you are applying as a 2-D MM artist in the artist statement.

Drawing, Graphics, Printmaking, Photography and Computer-Generated Work: This category includes compositions created by the artists' hand using chalk, charcoal, pastels, pencil, crayon, or ink with printmaking defined as multiple originals where the artists' hand has manipulated the plates, stones, blocks, composite reliefs, or screens. Photographic Works: two-dimensional work created by the artist that includes digital and film photography. Only artists' original source material is acceptable. Computer Generated Work: includes any original work created by the artist utilizing computer technology to craft visual images. Combinations of these media are also accepted in this category. Works displayed in booth must be printed by the artist or under the artist's supervision in limited editions properly signed, and numbered.

Jewelry: Work must be designed, created and executed by the artist. All work displayed must be similar in style, quality and method to work presented in the artists images. No commercial casts, molds or production studio work is allowed. If using a commercially purchased component (bead, glass, gemstone, pearl, metal, or other material not made by the artist) and then strung, assembled and/or twisted on wire, the work must be unique and of an original design that makes it artistically distinguishable and attributable in design to the exhibiting artist. Embellishment to existing pre-assembled components is not considered acceptable as fine art works. This medium typically receives a large number of applications; therefore, to ensure that a variety of all mediums will be exhibiting, acceptance is limited to 35 jewelers.

Three-Dimensional Media or Sculpture: Simply defined as works visible from 360 degrees. Original three-dimensional work incorporating any materials, or combination of materials, designed and executed by the artist using the following media: clay or porcelain work, fiber, found objects, glass, metal, wood, or any other 3-D objects. Glass work must be hand-crafted by the artist by blowing,

fusing, casting or kiln forming. This category also includes works crafted from fibers including basketry, embroidery, weaving, tapestry, leather work, and papermaking. If multiple pieces similar in design are displayed, each piece must be signed. RAM pressed clay or porcelain produced from commercially poured molds is not acceptable. No forms of production studio work or mass production are permitted. All pre-manufactured glass or wearable items are prohibited regardless of additional modification or enhancement by the artist.

Heritage Art: defined as a decorative or practical piece of artwork using any variety of materials to showcase traditional techniques from a specific culture or region, often called folk art. Heritage Art is usually unique to the people of a specific culture and is viewed as an expression of society and steeped in grassroots history. Heritage Art is frequently demonstrated through craftsmanship, utilitarian and ornamental media, color, and texture; showcasing artistic expression from a non-classically trained artist. Artists accepted into this medium will be assigned to exhibit in the Heritage Art Row only. This category is eligible to win a \$300 Merit award.

IMPORTANT

During the Festival all displays will be visited by the Review Committee to ensure that the displays and artwork are following Festival rules. It is our exclusive right and responsibility to remove work that is not in compliance. An Officer of the Festival will make the final decision. Non-compliance can result in expulsion and ineligibility for judging, awards, and potentially future Festival participation.

Artists provide their own white tents which must meet all fire codes. All tents must be weighted, not staked – even those exhibiting on grassy areas due to City park restrictions. A limited number of EZ-UP rental tents will be available; \$390 with tent walls, \$225 without walls, weights included in price, and are required. These will be open for purchase in the booth payment portal on ZAPP. The area provided to exhibit is typically 11x11, most with storage behind them; however, some booth spaces in our highest traffic areas *do not have backspace*. Some street booth locations will be allowed to bring an umbrella for extra shade around their booth area. As an outdoor event, exhibit spaces are not perfectly level but street booths do offer a more stable flat surface for those that require it. Electricity is not available. Please note *if you have storage requirements* or any other special requests in the comments section of your ZAPApplication. Artists are provided a standard basic tent ID card at check-in for the judging process. Artists are required to affix these to the front of the tent so they are easily visible. Artists are requested to exhibit within their designated space.

The artist will receive check-in times, a locator map, a temporary exhibitor parking permit, and State of Florida sales tax information on a date close to the event.

CHECK-IN & SET UP

All artists are required to check in on Friday, April 25, at LeMoyne Arts Education Center, 121 N. Gadsden Street, and show proof of identity. Check-in at LeMoyne is open from 10 am-7 pm. No-show artists – artists who do not alert the Festival of their cancellation – are subject to non-acceptance for future shows. Vehicles parked within Festival streets without a Festival-provided permit will be subject to towing.

Set Up: Booths located on the streets, set up only after street closures, generally noon on Friday. Based on booth location, specific setup times are provided to artists after acceptance. All vehicles are to be removed to designated parking areas immediately after unloading to allow others access. Failure to comply with this courtesy can affect artist placement in future requests. Set up must be complete no later than midnight on Friday.

Breakdown: Breakdown is prohibited prior to 4:00 pm Sunday. Once the festival closes, booths need to be broken down and items packed prior to retrieving vehicles. Streets will be reopened at 8:00 pm by TPD and all booths must be moved off streets by this time. Public parking guidelines will prevail after this time. Failure to comply with these courtesies can affect artist placement requests at future events.

SECURITY

Overnight security is provided by the Tallahassee Police Department (TPD) on Friday and Saturday

nights, allowing artists to leave exhibit displays. We strongly recommend that you pack up all valuable merchandise and equipment. LeMoyne and TPD are not responsible for any loss.

ARTIST CANCELLATION POLICY

Booth Fees are due on January 5, 2025 and once paid these fees are considered non-refundable. Extenuating circumstances can be reviewed by the committee for a refund prior to the Festival program production date. Those refunds are subject to a deduction of \$50.00 for fees retained by ZAPP and LeMoyne Arts administrative fee. After Friday, February 28, 2025 absolutely no refunds will be made. We understand emergencies will happen, and would be the only reason someone cancels at that late date, but after that date all processes to include each artist and their booth have been completed and are set for the event. Application fees are always non-refundable.

EVENT CANCELLATION POLICY

The festival is a fundraising event run by a non-profit community art center supporting artists. Booth fees go directly to advertising and operations for the event. With a rain-or-shine policy, the Festival will remain open in inclement weather, canceled only if the safety of the artists and patrons is deemed at risk or mandated by local, state, or federal governmental agencies. Should we be required to cancel, we will contact participating artists to evaluate options for a 'Plan B'. However, *if the event is canceled on or before February 28, 2025, we will be offering full booth fee refunds to all artists. If the event is canceled after February 28, 2025 we will be offering at least* 50% refunds as well as a rollover opportunity. Application fees are non-refundable.* *Our event runs on a very tight budget and this amount will be based on what we are able to return after advertising and operational costs spent up to the point of cancellation can be evaluated.
